### **Company Description**

Couragent<sup>™</sup> provides patented solutions that solve everyday problems, are designed to be simple to operate so many can use them, and have a combination of benefits that are not available anywhere else. The Flip-Pal<sup>™</sup> mobile scanner is the first product. It won the Overall Best Innovation award at the Craft & Hobby Association (CHA) trade show July 30 2010. The Colorado corporation was one of more than 260 exhibitors at the Craft SuperShow held in Chicago, IL. The scanner had been under development since September of 2009 and was formally introduced to the North American market as well as to more than 8,000 consumers who attended the CHA event. It started shipping in October 2010.

### **Flip-Pal<sup>™</sup> mobile scanner**

For Memory Keepers who want to conveniently and reliably scan photos, images in books and magazines, and works of art so that they can be stored digitally, then shared with family and friends for under \$150. The patented flip-and-scan technology allows you to scan photos safely while still in the album or frame. Unlike alternative solutions that don't have the combination of mobility, accuracy, versatility, and keeping the original safe, the Flip-Pal<sup>™</sup> mobile scanner is compact, simple to operate, has high resolution, quick scan time, battery power, onboard memory, and cordless - no computer required.

Orders for the \$149.99 scanner can be placed online at [www.flip-pal.com](http://www.flip-pal.com), [Amazon.com](http://Amazon.com), and many affiliate websites.

### **CEO**

Gordon Nuttall is the CEO of Couragent<sup>™</sup>. He has founded three other small businesses and two non-profits. Previous successful innovations have been in digital cameras, desktop scanners, consumer products software, multi-function peripherals, fax, and personal mass storage. He was granted four patents and numerous innovator awards while at Hewlett-Packard Company ("HP") and has three provisional patents related to mobile scanning. He is also a published author and innovation presenter. He started Couragent<sup>™</sup> from the outset as an intentional, values-based organization, with Courage, Integrity, Collaboration, Innovation, and Care as its core values.

### **In the News:**

The citation at CHA is the third innovation award. In November, 2009, the scanner was awarded Consumer Product of the Year at the Colorado Inventor Showcase in Denver, hosted by the DaVinci Institute. It was also awarded as the Best of Innovation by Quid Novi in November, 2010.

No longer will your precious photos, documents and other memories be scattered, lost or hidden. Take advantage of the Flip-Pal<sup>™</sup> mobile scanner's patented flip-and-scan technology to scan photos safely in their album or frame.
