

## The New Family Historian Wish List

---

Dear family,

Let's do a group gift this year.

Let's finally get our family history in order. It's time to hunt down family records, preserve what we value about life, record stories and wishes with each other, and scan all those old photos.

We should all have a copy.

This year, let's create the family history project to preserve pieces of the past for the next generation. If it's important enough to us we'll want it saved. We all have something to contribute.

I'll take the lead on organizing the project. Here are a few gift ideas that simplify the treasure hunt. It's a gift we give ourselves, an investment into our family's legacy. No regrets, let's get it done this year.

We can give these gifts individually or group several together for a big gift package. We can also create our own private wish list on Amazon ([www.amazon.com](http://www.amazon.com)) for other books and supplies we think we'll need.

Love,

---
