

Quick Start Guide

2 What's In the Box?

- Flip-Pal® mobile scanner - model 100C
- Four AA batteries (installed)
- SD memory card (installed) which stores your scans and also contains the Flip-Pal Toolbox software
- SD memory card to USB adaptor
- Quick Start Guide

3 Set Up

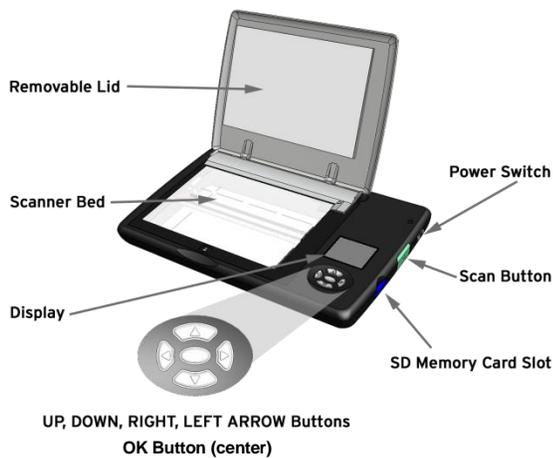

Activate the Batteries

Press gently on battery door while pulling tab sideways to remove

1 Introduction

Scanner Top (scanning side)

Power on the Scanner

Slide power switch toward rear, hold until the display lights up, then release

Set Date and Time

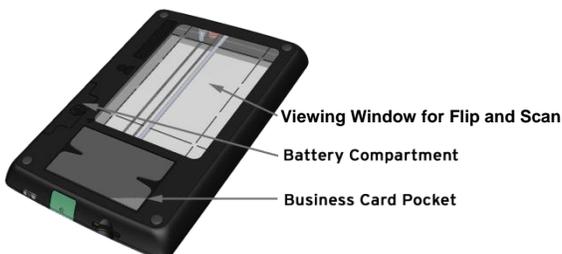

At initial power up or battery change, you will see this screen.

Use UP ARROW and DOWN ARROW to change the value of each field. Use LEFT ARROW and RIGHT ARROW to scroll to each of the fields in turn, beginning with month and ending with AM/PM. When you are satisfied with all settings, move the cursor to **Done** and press OK.

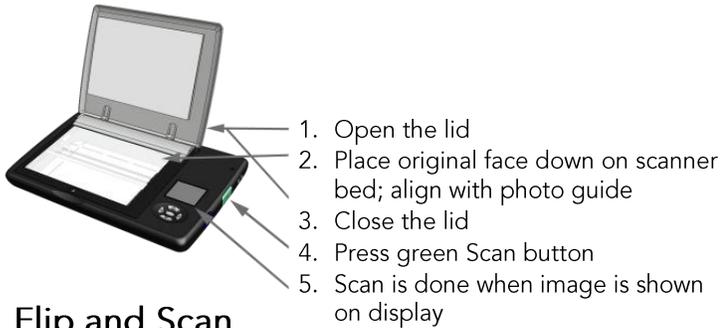

Note: If you press the green scan button when you first see this screen, you can skip the date and time and date. The creation date for your scans will start with the factory set time and date.

Scanner Bottom (viewing side)

4 Scanning

Standard Scanning

Flip and Scan

(scan photo albums & large originals)

1. Remove lid: Pull up on small tabs at ends of Photo Guide
2. Flip scanner over onto original
3. Align by looking through the viewing window
4. Press green Scan button

For scanning **larger originals**, see instructions under the Help tab in the Flip-Pal Toolbox software on the SD memory card.

6 Using Scans

Scans are stored on the SD memory card the same as digital camera images. To use scans, power off the scanner. To remove the SD memory card from the scanner, push it in gently; it springs out, then remove it. Insert it into your computer. If your computer does not have an SD card slot, use the supplied SD card to USB adaptor, connecting it to a USB slot on your computer.

Launch the **Flip-Pal Toolbox** software right from the SD memory card. Find the Flip-Pal drive location. Windows users look for **Win Flip-Pal Toolbox**; Mac users look for **Mac Flip-Pal Toolbox**. You can use it to:

- Stitch scans together for larger originals
- Create StoryScans™ talking images
- Rotate, crop, and correct the color on scans
- Transfer scans to your computer
- Join Flip-Pal communities
- Upload scans to the internet
- View or print the Flip-Pal documentation
- Register your scanner
- Watch "How To" videos
- Access www.flip-pal.com and customer support

Be sure you have the latest version – visit www.flip-pal.com for more information.

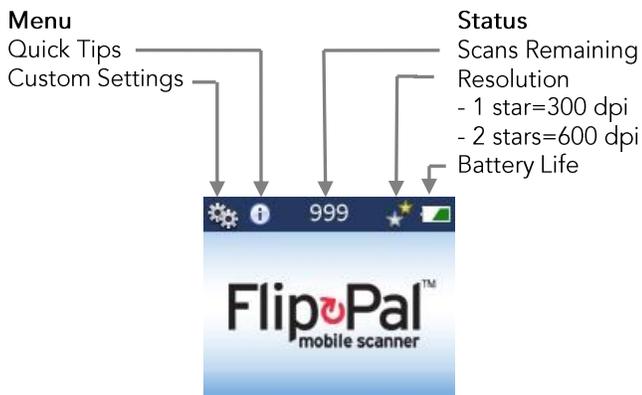

5 Screens

Review Screen

To access the Review Screen press OK. You see the most-recently scanned image. Use LEFT and RIGHT ARROW to scroll through scans.

Home Screen

To access helpful Quick Tips or Custom Settings, press UP ARROW then use the ARROW buttons to navigate and OK button to select. See the User's Guide for more information on Custom Settings.

7 For More Information

The Flip-Pal User's Guide has more information on these and other topics. You can view or print the User's Guide from the Flip-Pal Toolbox software on the SD memory card or from www.flip-pal.com, along with technical support, Frequently Asked Questions (FAQs), creative ideas, accessories, and more.

Register Your Scanner

Visit www.flip-pal.com to register your new Flip-Pal mobile scanner. When you register, you will be eligible to receive free technical support for one year from date of purchase.
